

# *Character*

For the work that has been done for the charter we have as the player in the game Ashton Davenport our character creator worked on wo main ways to get our character done one of these was to have each taeam have its own style of player and the other one and the one we when with for the final game was having all of the players from evey team look the same this we felt as a team work with our overall concept of everone being one better.
